BEYOND IMAGINATION

About Us

With our unvarying focus towards creating a comprehensive collection of formidable products and exceptional service, we have fastly become one of the front-runners in the ceramic space. We aspire to use our expertise and ardor to turn your dreams into reality.

We are always striving to upgrade our technology to manufacture superior products. At Bonzer7, we follow the adage 'Inspired By You'. It is a priority for us to meet the expectations of our customers fittingly. Our efforts are directed towards providing our customers new designs with unmatched quality.

A testament to our 'customer first approach' is our happy customers. We have become the preferred brand of country's prime architects, interior designers, custom home builders, developers and astute homeowners in a short span of time.

QUALITY THAT IS STAMPED BY AUTHORITIES OUR CERTIFICATIONS AND ACCREDITATIONS

Bonzer7 has prioritized quality in all its endeavors and the same has been recognized by authorities. We have received certain certifications that boast our adherence to market standards and established procedures. We are also the proud recipients of 'Power Brands Rising Star' - a recognition bestowed upon us by Indian customers.

The radiant sheen

augmenting grandeur

Glossy tiles have shiny surfaces and have an enamel coating that reflects light. Glossy Tiles are ideal for small areas, as they make any area look brighter and more spacious... These tiles are available in 300x600mm, 300x450mm & 300x300mm.

Matt finish tiles are perfect for imparting a traditional look to any space. Matt finish tiles are a preferred material for outdoor applications due to their anti-slip feature and durability.

Save you money on air conditioning and make your building more comfortable in hot weather.

A Bon roof is one that has been designed to reflect more sunlight and abrasio less heat than a standard roof. Bon roofs are made of a highly reflective roof coating systems. Nearly any type of building can benefit from a Bon roof. Just as wearing light-colored clothing can help keep you cool on a sunny day. Bon roofs use solar-reflective surfaces to maintain lower roof temperatures. Standard or dark roofs can reach temperatures of 150°F or more in the summer sun. A cool roof under the same conditions could stay more than 50°F cooler.

BENEFITS OF BON ROOFS

* A cool roof can benefit a building and its occupants by: Reducing energy bills decreasing air conditioning needs.

Improving indoor comfort for spaces that are not air conditioned

* Decreasing roof temperature, which may extend roof service life. Beyond the building itself, cool roofs can also benefit the environment, especially when many building in a community have them.

Cool roofs can:

- * Reduce local air temperatures (sometimes referred to as the urban heat island effect)
- * Lower peak electricity demand, which can help prevant power outages.
- * Reduce power plant emissions, including carbon dioxide, nitrous oxides and mercury by reducing cooling energy use in buildings.
